Dear Sir

We have gone over the calculation for Ebony velvet frame & to make one such as you describe will cost twenty five dollars, this may appear a little high to you but the work is must necessarily be all hand work, and it will cut into velvet enormously, the above price includes 1st quality french glass.

Yours Respectfully

Dear Sir

Yours of 15th came
during my absence on account
of sickness and was mislaid

I gave you our regular
prices but Mr Edmundo tells
me he gave you lower rates
when here and therefore we
will do the holiday at 10c.

We desire to have you
keep in mind the fact
that our prints will never
fade like photographs and
are therefore very desirable
on that account.

Mr Wm McLeod

Dear Sir

The frame which we quoted you @ \$15 we figured for a solid walnut outside one of our regular patterns which we run by machine whereas the frame you want must all be worked by hand. However if you wish we will take your order for the kind of frame you want and any advantage there may be less than \$25 after we take off of time & material we will give you but to estimate it we do not feel safe in quoting less than \$25.
